

Sixteen Days of Activism: Raising Awareness Against Gender-Based Violence

December 6, 2024

As part of the global movement during the 16 Days of Activism, GRASS (Grassroots Agency for Social Services) proudly to engage the Buchanan concession communities in a vital campaign focusing on awareness of Gender-Based Violence (GBV) and Sexual Abuse.

We reached out to 40 household of women and girls in the Bacooni and Air Field communities through a door-to-door awareness approach. Armed with informative flyers, our dedicated team worked tirelessly to spread knowledge, share resources, and empower individuals to recognize and report violence in all its forms.

GBV is a serious issue that affects many in our society, and together, we can create a supportive network for those who need it most.

Let's stand united against violence and ensure that everyone feels safe.

Join us in our efforts to educate and empower!

Together, we can make a difference!
